My darling sweetheart:-

Just as I sat down to write you some good news, in came your letter of the 20th.

Toots mine, I made $300.00 out of my uncle's case. What do you think of it, darling? Isn't that good? Well, Toots, I've decided to come home, but not for the summer. It must be before then, as the conscription bill seems very likely to pass within the next 6 days, & I want to be home before they caught here. Toots, I am going to pay off $75 in debt, come home on $100 & leave a $100 here in the bank. Again, I may leave here around the 1st of May & be with you for 20 days, so that when I come home here, I may be able to make a few dollars here during the summer months. Now, darling mine, are you glad to get this news?

Honey, I do love you. I love you with all tight & might. I don't think there's another fellow who loves his sweetheart as much as I do you. When I go to bed or I awake, you are always in my mind. Now I can hardly await the time for me to

come home & show you that I do, but must believe we won't have some time when I get to you.

Irene was glad to hear that you are enjoying yourself so much. How did you like the play at the Comedy Theatre? and how did you ~~do~~ enjoy yourself at the Japanese party? Irene would have loved to be with you, but someday, Toots mine, someday. Wherever we'll go, we'll go together, you & I, and I for one, do hope that time comes pretty soon.

Keep on embroidering, darling, & don't worry whether or not you'll get through. Every thing will come out O. K.

Honey, I must go up to the refuge now & see if I can't get my check now. Write me a nice long letter, nice & fat, & tell me how much you love me for I'm just pining for you.

With all my love to my own precious sweetheart, from your

Ever lovingly,

Joe

How's your sister Dodie feeling?
